Aloha fellow Kaua'i Residents!

My name is Jett Jasper, I was born and raised on the Island of Kaua'i. I have played many sports growing up and have always enjoyed the natural beauty of our Island.

I played Pop Warner football, football at Kaua'i High School and then went on to play football at the University of Hawai'i. I have recently graduated with my Master's degree and have moved back to the Island that I love.

I was astounded to find out that many outdoor nighttime activities on the Island have been rescheduled during the day because of the shearwaters and the effects the lights have on them. Not only high school sports but intramural sports, drag racing, and all night events have been affected by this over-reaching federal regulation. Not to be overlooked, the safety and security of parking lots, private and county properties, and parks, all feel the effects of the lights being turned off.

Don't get me wrong, I am an animal lover, I always have been. However, I put the safety and the well-being of people first, and so does Gov. Linda Lingle!

Changing the times of games being played to the middle of the day's heat is detrimental to our young athletes' health. What about the Grandparents, Aunties and Uncles who sit in the hot sun supporting their families, this isn't beneficial for them either. Having games in the middle of the day also makes it difficult for ALL working families to attend. As someone who has grown up on Kaua'i and was active in athletics, it saddens me to see the traditions and the well-being of our kids put in jeopardy.

A vote for Linda Lingle to be our next U.S. Senator, is a vote for her to get the federal government to re-examine this over-reaching law. She will work to find a better balance between the shearwaters and our young athletes' ability to once again play night games. I know she will do her best to work for the people of Kaua'i, by reinstating our traditions and representing us proudly in Washington.

I believe in Linda Lingle and I encourage you to support her too!

Sincerely,

Jett Jasper  
Kaua'i Regional Manager  
Linda Lingle Senate Committee

FUCK U,  
JETT!
